OBJECTIVE

As a motivated fresher, I aim to start my career in a progressive organization where I can apply my academic knowledge, enhance my skills, and gain practical experience. I am eager to contribute to team success, task on challenging tasks, and grow professionally while delivering meaningful results.

INTERNSHIP

Salesforce Admin Intern

SoftSquare

📅 06/2023 - 07/2023 📍 Chennai

A company specializing in customer relationship management solutions

- Learned the fundamentals of Salesforce Administration, including user management, data handling, and automation workflows
- Gained practical experience in CRM configuration, customization, and report generation to enhance business process efficiency

Artificial Intelligence & Machine Learning Intern

AK INFOPARK

📅 07/2024 - 08/2024 📍 Nagercoil

An innovation center focused on technology and development

- Worked on Python programming and core machine learning algorithms, including regression, classification, and clustering techniques
- Implemented predictive models and performed data analysis to gain hands-on experience in AI-driven problem solving

EDUCATION

B.E. in Computer Science and Engineering

Einstein College of Engineering, Tirunelveli

📅 2021 – 2025 CGPA: 8.00

HSC

Amali Girls Higher Secondary School, V.K. Puram

📅 2019 – 2021 Percentage: 75.934%

SKILLS

Program Language: Java, JavaScript, Python (Basic)

Database: MySQL, MongoDB

Web/Frameworks: HTML, CSS, Bootstrap, ReactJS, NodeJS, jQuery

Tools/IDEs: Git, GitHub, Visual Studio, Eclipse, MS Office

Soft Skills: Team Collaboration, Time Management, Problem-Solving, Adaptability, Communication

PROJECT

Smart Tourism Recommender System

Technologies Used: Python, Machine Learning, Big Data Analytics, Flask, HTML, CSS, JavaScript.

- Developed an intelligent hybrid recommender system that suggests personalized tourist destinations based on user preferences, travel history, and real-time data analytics. Leveraged Artificial Intelligence and Big Data techniques to enhance travel recommendations and user satisfaction.

Student Management System

Technologies Used: Java, JDBC, MySQL, VS Code.

- Designed and implemented a desktop-based application to efficiently manage student records, including registration, attendance, and performance tracking. Integrated JDBC for seamless communication between the Java front-end and MySQL database.

Simple E-Commerce Website

Technologies Used: MongoDB, Express.js, React.js, Node.js, REST API, Bootstrap.

- Built a full-stack e-commerce web application supporting product listing, shopping cart, and order management functionalities. Utilized the MERN stack to provide a responsive and scalable platform with dynamic user interaction.

Web Development Projects

Technologie Used: HTML, CSS, JavaScript, React.js, Node.js, Firebase, Tailwind CSS, OpenWeather API

- Developed several responsive web applications, including a Weather App, Portfolio Website, To-Do List, Login System, and Simple Calculator. Focused on clean design, smooth navigation, real-time functionality, and user-friendly interfaces

CERTIFICATION

Web Development – Sololearn:

Certified in essential web development concepts and modern web app creation.

Fundamentals of Python – Great Learning:

Certified in core Python programming and basic data handling concepts.

Java Full Stack Development – TNSIF:

Trained in full-stack Java development covering front-end, back-end, and database integration.
